

July 2015

To all our customers

NISSEI CORPOTATION

## Notice about a Discontinued Product

Dear customers:

I hope this letter finds you and your company doing well, and thank you very much indeed for your continued support.

Please be advised that the following products will be discontinued. After product discontinuation, we will provide an alternative product. For a smooth shift, we will provide the best care. We appreciate your understanding.

We hope you will continue to favor our products.

Sincerely

### Details

#### 1. Product to be discontinued

##### ■ GTR-AR (**Type AGC**)

- High-precision, parallel-axis speed reducer for servomotors  
100 - 3000 W

#### 2. Last date of order receipt

June 30, 2016

#### 3. Spare-part supply period

Seven years from the last date of order receipt (supposed to end in June 2023\*)

\* According to the situation, the supply period may end earlier.

Note: In the spare-part supply period, the delivery times and prices of the spare parts are different.

#### 4. Alternative product

Product to be discontinued	Alternative product
GTR-AR - High-precision speed reducer for servomotors Parallel-axis <b><u>AGC type</u></b> with a capacity of 100 to 3000 W	GTR-AR - high-precision <u>planetary speed reducer</u> for servomotors Parallel-axis <b><u>APG type</u></b> with a capacity of 100 to 3000 W
	

## 5. Configuration comparison between models

### ■ AGC type (products discontinued)

Capacity	Accuracy	Reduction ratio								
		3	5	7.5	10	12	15	20	25	30
100 W	3 minutes and 30 seconds	Frame # 10 (□56)		Frame # 12 (□62)		Frame # 15 (□72)				
200 W		Frame # 12 (□62)		Frame # 15 (□72)		Frame # 18 (□82)				
400 W		Frame # 15 (□72)		Frame # 18 (□82)		Frame # 22 (□102)				
750 W		Frame # 18 (□82)		Frame # 22 (□102)		Frame # 28 (□120)				
1000 W		Frame # 22 (□102)		Frame # 28 (□120)		Frame # 32 (□135)				
2000 W		Frame # 28 (□120)		Frame # 32 (□135)		-	-	-	-	-
3000 W		Frame # 32 (□135)		-	-	-	-	-	-	-

### ■ APG type (alternative product)

Capacity	Reduction ratio	Reduction ratio									
		3	5	10	15	20	30	40	50	60	100
100 W	3 minutes and 15 seconds	Frame # 12 (□52)						Frame # 18 (□78)			
200 W		Frame # 12 (□52)					Frame # 18 (□78)				Frame # 22 (□98)
400 W		Frame # 12 (□52)		Frame # 18 (□78)				Frame # 22 (□98)			Frame # 28 (□120)
750 W		Frame # 18 (□78)			Frame # 22 (□98)			Frame # 28 (□120)		-	-
1000 W		Frame # 22 (□98)			Frame # 28 (□120)				-	-	-
1500 W		Frame # 22 (□98)			Frame # 28 (□120)				-	-	-
2000 W		Frame # 22 (□98)			Frame # 28 (□120)		-	-	-	-	-
3000 W		Frame # 28 (□120)			-	-	-	-	-	-	-

### <Features of the AGP type>

- Downsized by the planetary mechanism
- Accuracies of 3 and 15 minutes are available.
- Reduction ratios down to 1/100
- Protection level selectable between IP44 and IP65 and resistance to water and dust
