## **Announcement on Price Revision**

Dear Customers,

We would like to express our sincere gratitude for your continued support.

We have tried to prevent this price increase for as long as possible because of course we want to provide our products at a competitive price. However, the recent increase in the price of the raw materials is now too great for us to absorb, and we regrettably have no choice other than to implement a slight increase on the items listed below.

We hope that you will understand our situation and will continue to support our products.

Sincerely
